Making an R-Zone Incident Report

If you are involved in or witness an incident within our facilities, please report it immediately to our staff. They'll follow up with appropriate procedures and complete an incident report with your assistance.

If the situation occurs where there is no staff present (at an outdoor field, for example) and a community organization is involved, please advise them directly so they can report it.

If you become aware of an incident after leaving the facility, you can use our online R-Zone Incident Report to let us know. We recommend doing so within 24-hours. This can be found at the link below.

Visit kincardine.ca/R-zone for more information.

What is the R-Zone Policy?

The goal of this policy is to promote a positive, safe, enjoyable, and supportive environment for all users and staff in Municipality of Kincardine recreational programs, facilities, or properties.

What does R-Zone Mean?

Pickleball Ladder League

A fun 6-week league program using the Picklehead app. Registration is required. You can choose to be part of the league or to be added to the substitute player list.

League Format:

The format of play is designed so that players play mostly with others of similar skill levels. Your ranking on a ladder is based on the following formula:

- Players move up or down the ladder based on the total points they obtain
- Each week, players will be placed in groups of 4 or 5 in order of their rankings on the ladder for match play. Those players will play round robin format, so everyone on the court has been paired with every other player in the pool
- Matches will be 2 games straight and will be played to 11 points (win by 1). You will then rotate partners for the remaining matches.
- The total points scored for each player are totaled at the end of the day. The player with the most points will move up a court the following week, and the player with the least amount of points moves down a court the following week.
